

# TAMS

## TOTAL APPAREL MANAGEMENT SYSTEM

- ✓ Are you looking to **KEEP CONTROL** and **REDUCE YOUR COSTS**?
- ✓ Do you want to **CONTROL THE RANGE** and **USAGE** of your companies safety requirements?
- ✓ Do you want to **IMPROVE PRODUCTIVITY** and **EFFICIENCY** in procurement and administration?

## WE HAVE THE SOLUTION

TAMS is a fully integrated online ordering system that provides you with an easy to navigate, customized online catalogue specific to your safety workwear and PPE requirements.

### TAILORED CATALOGUE

Your own easy to navigate, tailored online catalogue specific to your site and/or employee needs.

### PRODUCT CONTROL

You can limit and control which products are available for purchase per site and/or employee. Additionally, multi-level order approvals can be implemented for each order.

### ORDER TRACKING

Track progress of current orders in 'real-time'. Review order history at any time.

### PRODUCT USAGE REPORTS

Product usage reports for each site, employee or cost centre.

### EMPLOYEE ACCESS

Individual username and password controls. Only company approved products specific to each employee are visible to that employee.

### EXCHANGE AND RETURNS

Easy online exchange and returns.

### What about my existing procurement system?

TAMS is highly adaptable and easy to integrate into your existing procurement software or system by using the PUNCH-OUT feature.
